REASSURING DISPATCHES RECEIVED BY STATE AND NAVY DEPARTMENTS.

### TAKE OVER THE OFFICES

Liberals Proceed to Take Charge of Affairs in the Captured City—The Civic Treasury and the Cash and Stamps in the Postoffice Appropriated—Reported That General Albar Will Take His Force to Panama.

Washington, Nov. 22.—Save for two reassuring dispatches from Consul General Guder at Panama and Captain Perry of the battleship Iowa, lying off that port, neither the state nor the navy department has received any advices concerning the situation of the isthmus.

Great interest is felt in official circles here as to the outcome of the Chorrera expedition, for it is realized that the result of the engagement at that point will be decisive in giving either the Conservative or the Liberal element control of the isthmus.

Secretary Long has not sent any additional instructions to the commanders of the Iowa and the Machias, believing that too full directions oftentimes hamper instead of facilitate in such a situation as now exists on the isthmus, preferring to trust to the officers' own judgment in suiting their actions to the prime purpose of keeping traffic free and American interests fully protected.

In a few days the gunboat Concorro will have reached Panama to relieve the Iowa and the Marietta on the Atlantic side will be at Colon to take the place of the Machias. However, in the present situation continues all four of these vessels will be held on the isthmus pending further developments.

### APPOINTMENTS BY LIBERALS.

Proceed to Take Over the Civic Offices and Funds in Colon.

Colon, Colombia, Nov. 22.—Provisional appointments were made by the Liberals during the day to the various civic offices. The treasury safe was opened in the presence of witnesses. It was found to contain 1,080 Colombian dollars, equivalent to \$450 gold. The former postmaster also handed over to the Liberals the cash and the postage stamps in his possession.

Reports from Panama say the government is still busy erecting breastworks in the vicinity of the railroad property in the direction of which the Liberal attack is expected.

The mayor of Panama started in a launch during the morning to report the state of affairs to General Alban. Since the mayor's return to Panama it has been rumored that he found the general at Chorrera and that he decided to take his forces back to Panama by land and reinforce the garrison there. The political prisoners at Panama have been removed from their usual prison to a safer place of confinement.

### REYES IS RETICENT.

Colombian General Declines to Discuss the Presidency.

Orizaba, Nov. 22.—General Rafael Reyes of Colombia was on a train between Fortin and Orizaba, on the Vera Cruz railway, with other delegates to the Pan-American conference when he was shown the Associated Press dispatch announcing the taking of

Colon by the Colombian Liberals. General Reyes said he would not like to talk until he had received official advices. Without attempting to minimize the importance of the news he said that the latest turn of affairs might easily prove to have been a trap laid by General Alban to catch the insurgents. When asked whether he would accept the presidency of Colombia and whether this Liberal success would cause any change in his plans he said:

"I prefer not to say whether I will accept the presidency until I have conferred with General Opsina and General Holguin upon my return to Mexico City. So far I have declined the offer. I cannot say just now whether or not I may take a different view of the matter after conferring with my countrymen, but this latest event will not in any case affect my decision."

### FOUND MUCH PLUNDER.

Weber and says he finished a 12-year sentence at San Quentin, Cal., Sept. 26, 1900, and that since last July he has committed many robberies in Chicago, Minneapolis, St. Paul and Kansas City. The man was found acting in a suspicious manner in a residence part of the city and was taken to the police station. Burglar's tools were found in his possession. ## MEN WILL NOT DISBAND

STRIKING MINERS ORDERED TO GATHER AT NORTONVILLE, KY., AT ONCE.

### COME FROM ALL SECTIONS

Most of Them Carry Their Arms. Bound to Resist the Attempt of County Judge Hall to Disperse Them. Authorities Have Two Companies of Militia and a Battery of Artillery to Enforce Court's Orders.

Earlington, Ky., Nov. 22.—All of the striking miners have been ordered by President James D. Wood of the United Mine Workers of this district to report at the Nortonville camp at once. This order was issued during the afternoon and runners were sent to the various quarters of the district where the men assemble. The strikers are now mobilizing, coming in squads from all sections. The Madisonville men started out at once and are traveling over the country to Nortonville. Most of them carry their arms. Men have been straggling in all day.

In the case of resistance on the part of the miners Adjutant General Murray has two companies of militia in hand. It is probable that Battery A of Louisville and other troops will be called. If the coal operators are called upon they can furnish 300 or 400 good tried men.

Another story is that the miners will move to a point across Pond river, in Muhlenberg county, just over the Hopkins county line, where they will establish a camp.

President Wood at Central City talked over the telephone with a correspondent at Madisonville. He said he had been in conference with officials of the United Mine Workers concerning a line of policy and that a decision would be reached in the morning. He expressed the opinion that the men would not disband. He says he does not look for trouble with the militia and that he considers the general situation very satisfactory. There are at present 150 men in camp, President Wood stated, and the force could be raised to 1,500 men within 12 hours.

Frankfort, Ky., Nov. 22.—John Brasher and Representative Bradley of Hopkins county, representing the miners camped in that county who are resisting the attempt of County Judge Hall to disperse them, were here in conference with Governor Beckham to ascertain whether the state troops stationed at the mines will be used to break up the camp. At the close of the interview with them the governor stated that the troops would remain under the orders of Judge Hall and would do as he directed. Judge Hall's injunction to the miners was to break camp within three days or he would disperse them with the aid of troops.

### BLOODSHED IS EXPECTED.

Union Men Declare That the Vincennes, Ind., Mine Shall Not Run.

Vincennes, Ind., Nov. 22.—After a two hours' conference here with the operators of the Prospect Hill coal mines, President Van Horn of the state miners' union stated that no agreement was reached, which means that there will probably be a prolonged struggle. He said the operators refused to pay the scale and that he would instruct the strikers to stand firm, even though it took \$10,000 to do so. He said that the union had but the one scale and he could recommend no other. The operators have reorganized, making all the non-union employees stockholders, and say they intend to operate the mines at all hazards. The union men declare the mines cannot be run unless unionized and bloodshed is expected.

### WILL NOT GIVE POSSESSION.

Foreign Military Board Continues to Govern Tien Tsin.

Peking, Nov. 22.—The military government and board over the native city of Tien Tsin continues in effect, the military commanders refusing to yield the collection of taxes to the Chinese. They also decline to submit the question of their control of the native city to the ministers of the foreign powers here, holding that a continuance of the military government there is vital to the maintenance of communication between Peking and Taku. The ministers apparently regard the question as within their jurisdiction and some of them are of the opinion that it is impossible under the terms of the protocol for foreigners to continue to govern Tien Tsin.

Indians will neither consent to quarantine as among themselves nor stay on the reservation. I wire for instructions. State board of health now in session. Will you wire authority or direct agent to act?"

Secretary Hitchcock immediately wired the following answer: "Department will be glad to co-operate with the state authorities in protecting the people of Tama against smallpox among the Indians and will so instruct the Indian agent in charge. Under the exigency shown in your telegram your state board of health and state authorities may take any necessary action."

Eighteen Miles of Trout Nets Seized in Lake Michigan.

St. Joseph, Mich., Nov. 22.—Deputy Game Warden Brewster has returned from his hunt in the lake, having made the biggest seizure of nets and fish ever reported on the Great Lakes. He captured 18 miles of new trout nets belonging to the A. Booth company of Chicago, valued at \$10,000. Big legal fights are expected to follow. The nets, it is claimed, were found in Michigan waters, having been set there contrary to Michigan law and in direct defiance of the game warden and his cruiser.

The tug Harrow, belonging to Booth, was sighted, but a battle did not occur. Brewster will resume his cruise with a big force of deputies, fully armed, in case Booth decides to have his tugs and crews interfere. During the day 5,000 pounds of fish were confiscated and stored in the hold of the boat.

The new recorder is a political lieutenant of State Senator William Flinn, former leader of the anti-Quay Republican organization in Pennsylvania, and is chairman of the Pittsburg Republican city committee.

## WOULD QUARANTINE INDIANS.

Governor Shaw Asks Secretary Hitchcock for Authority.

Indians will neither consent to quarantine as among themselves nor stay on the reservation. I wire for instructions. State board of health now in session. Will you wire authority or direct agent to act?"

Secretary Hitchcock immediately wired the following answer:

"Department will be glad to co-operate with the state authorities in protecting the people of Tama against smallpox among the Indians and will so instruct the Indian agent in charge. Under the exigency shown in your telegram your state board of health and state authorities may take any necessary action."

Several years ago Regner suffered from an attack of sunstroke and became deranged, but his condition was not considered serious. He leaves a widow and family of six children.

## RAID BY GAME WARDEN.

Eighteen Miles of Trout Nets Seized in Lake Michigan.

St. Joseph, Mich., Nov. 22.—Deputy Game Warden Brewster has returned from his hunt in the lake, having made the biggest seizure of nets and fish ever reported on the Great Lakes. He captured 18 miles of new trout nets belonging to the A. Booth company of Chicago, valued at \$10,000. Big legal fights are expected to follow. The nets, it is claimed, were found in Michigan waters, having been set there contrary to Michigan law and in direct defiance of the game warden and his cruiser.

The tug Harrow, belonging to Booth, was sighted, but a battle did not occur. Brewster will resume his cruise with a big force of deputies, fully armed, in case Booth decides to have his tugs and crews interfere. During the day 5,000 pounds of fish were confiscated and stored in the hold of the boat.

Harrisburg, Pa., Nov. 22.—Governor Stone has removed Recorder A. M. Brown, chief executive officer of Pittsburg, and appointed in his place ex-Director of Public Safety J. O. Brown. In a lengthy statement addressed to "the people of Pittsburg," the governor says that Recorder A. M. Brown was removed because he had removed a large number of efficient officeholders "for political reasons" and against the governor's protest.

The new recorder is a political lieutenant of State Senator William Flinn, former leader of the anti-Quay Republican organization in Pennsylvania, and is chairman of the Pittsburg Republican city committee.

## SECOND DEGREE MURDER.

Oskaloosa, Kan., Nov. 22.—The jury in the case of William H. Klumire, on trial for killing his wife on her farm in Jackson county last summer, brought in a verdict of murder in the second degree. Mrs. Klumire's body was found buried two feet under the ground in the barnyard. On the stand Klumire said that his wife had committed suicide and that he had buried the body to avoid the disgrace that would follow publicity. He disappeared and telegraphed his children from Texas that their mother had died and been buried in that state. Klumire is a wealthy farmer, 40 years of age.

## WILL BE A TEST CASE.

Ohio, Supreme Court Appealed to in Railroad Assessment Cases.

Columbus, O., Nov. 22.—Mayor Tom L. Johnson of Cleveland has filed a motion in the supreme court asking leave to bring suit in mandamus to compel the state board of equalization to reassess the railroads of the state for the purpose of taxation, their val-

ation to be determined by the market value of their securities. Mayor Johnson was allowed to speak in behalf of his motion. No opposition was offered by the attorney general, it being the desire of the state officials to have the powers of the board of equalization judicially determined. The court will decide the motion next Tuesday.

## SORRY HE BURNED THEM.

Only Regret Expressed by the Murderer of the Montgomerys.

Oxford, Miss., Nov. 22.—Will Mathis, charged with murdering the two Montgomerys and burning their bodies, and who surrendered himself to the authorities, was a witness before the coroner's jury during the day. When asked if he was sorry he killed the two men he replied: "I am only sorry I burned them."

The town is full of country people and what will be done is hard to tell, but it is hardly thought there will be mob violence and Mathis will be dealt with according to law.

## General Buffington Retires.

Washington, Nov. 22.—General Adelbert Buffington, chief of the bureau of ordnance, has retired, having reached the age limit. General Buffington became chief of the bureau in 1899 and during his incumbency many improvements have been made in this branch of the service. His most important work was the strengthening of our coast defenses, which have reached a high state of efficiency.

## CURBSTONE CHAT.

Ex Mayor Koop: I have not decided whether I will rebuild the mill at Backus or not.

M. J. Rielly: The necessity of gates on the Eighth and Sixth street crossing is a matter that should be agitated by the business men of the city. This is a rather important matter but of course not until some one has lost a limb or perhaps their life will the citizens begin to wake up.

## Neighborhood Gossip.

Charles Vallancey, brother of R. G. P. Vallancey of Jamestown, was drowned Tuesday night in lake Superior at Duluth. The body was recovered.

George Ackerman, a passenger brakeman on the Chicago Great Western, was run over and instantly killed by a train at Hayfield, 18 miles from here. He lived at that place.

A sad drowning occurred at Detroit recently Frank Peters, a prominent mason and G. A. R. man, while skating on Detroit lake about noon, broke through the ice and was drowned.

Edward Clark, of Fergus Falls has had his legs and wrists filled with shot by a comrade who fired at him in the big woods at Moscow, supposing him to be a deer. The injuries are not serious.

Harry Rannels, of Ferris, was found dead near the railroad. There were gunshots through his right side and his head. A whisky bottle lay near and his gun at his feet. There are suspicions he was murdered.

The Sleepy Eye Land and Investment company, capitalized at \$50,000 has filed articles of incorporation with the secretary of state. The incorporators are Hans Moe, Otto W. Hagen, George W. Somerville, A. C. Van Hagen, John C. Holen, Frank H. Dyckman, John A. White, W. K. McFarland and Ingeval M. Olson.

A peculiar disease has been prevailing among the horses in Red Lake county. Dr. Brimhall, state veterinarian, accompanied by Dr. Wilson, the state bacteriologist, has gone to examine. In Red Lake county alone the loss this fall has amounted to thousands of dollars and the disease is spreading.

L. D. Mead, an aged peddler, of Winona, met instant death at Minnesota City, by being run down by the northbound fast mail train on the Milwaukee and St. Paul road as he was crossing the track in a wagon. Mead was muffled up in a fur coat and did not hear the train approaching. He was struck by the boiler head and badly crushed.

Big offers are being made for the carrying of coal from Lake Erie to the head of Lake Superior. All summer, while freights up lakes were very low, the coal men put off contracting sufficient tonnage, and now, as usual, when freights are likely to advance sharply, they make the advance a certainty by pushing forward all the stuff they can move. This is not the way the ore people handle their tonnage business.

The case brought by Andrew Johnson Emery, a colored man, against Samuel Hill came on for trial in the district court late Tuesday evening at Fergus Falls. Mr. Hill having arrived from the West during the day. Emery claims that he was to have \$30 per month for taking care of Mr. Hill's club house at Otter Tail lake, and that he is now entitled to \$1,900, while Mr. Hill claims that he was only to have the use of the land adjoining the resort.

The uniform good crops, general throughout Clay county, have been particularly beneficial to local farmers, many of whom were impecuniated by the failures of past years. Much building is being done; several large business houses are now nearing completion. Generally speaking, the crops on the Minnesota side of the Red River valley were fully as good as those of Dakota. Much interest attaches to the growth of corn and plants hitherto considered foreign to this locality.

Graff Brothers' big flour mill at Lake Crystal was destroyed by fire at 1 o'clock Tuesday morning. Along with it went the electric lighting plant, the water works power and the telephone system. The fire started in an upper story of the mill, probably from spontaneous combustion, as a loud explosion gave the warning. When the water works power was crippled, little could be done to save the property, and the flames simply burned themselves out. The loss on mill and machinery is \$60,000; on grain and flour, \$15,000. The total insurance on the plant is \$24,000. The mill was built in 1893 at a cost of \$35,500. It was good property, and will be rebuilt at once. The loss on mill and public plants is \$100,000 or more.

"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds too, down to the very verge of consumption.

## LUMBERMEN DIFFER IN THEIR OPINIONS.

Some Claim That the Stumpage Owners Held Their Prices Too High.

PRICE ALMOST PROHIBITIVE.

Far-Sighted Manufacturers Stepped in and Bought the Timber When Cheap.

At the time of the sale recently by State Auditor Dunn, of stumpage in this state there was some spirited bidding, and the advance in pine timber has been little short of remarkable as the record of recent transfers will show.

It will be remembered that J. J. Howe, of this city, at the time of the big sale in an interview in St. Paul, stated that should he decide to have an auction sale he would hire State Auditor Dunn. He believed the prices were way out of sight. But it is interesting to note the difference of opinion on the subject between the lumbermen of Northern Minnesota and the lumbermen who are short of pine.

During the past week there have been several large timber land buyers through this vicinity but it is claimed that they were unable to touch any pine tract in Northern Minnesota at the prices offered. The buyers declare that there is not a foot of timber land left in the northern part of the state, unless owned by the government, upon which the owner has not placed a price that is almost prohibitive. Lumbermen claim that the pine has been over-estimated and over-priced. One prominent Wisconsin buyer a few days ago is said to have offered \$4.50 per thousand for the timber in a few scattered tracts in the northern part of this state, the timber on which is not very accessible, but the offer was promptly refused. The estimated amount of the timber was 15,000,000 feet.

On the other hand, the owners of timber claim that the manufacturers have been saying the same thing of the timber in Northern Minnesota for the past five to eight years. When they could buy it as low as \$1.50 a thousand they would not do it because they could buy logs cheaper than they could buy the timber and log it. They did not look ahead, but seemed to act on the assumption that the condition then prevailing would continue as long as they wanted it to. As the rise in price began they could not change their ideas to meet the changed condition of affairs and hence, according to the timbermen, they have ever since been crying against the exorbitant price placed on timber.

The far-sighted manufacturers stepped in and bought the timber when it was cheap and they are the ones that are reaping the great benefit from the advance. The number who did so, however, is small. There are probably only two or three large tracts in the hands of manufacturers that were bought in that way. Some of the manufacturers who neglected the golden opportunity, too, were men who had operated in Michigan, whose timber underwent practically the same evolution. They failed to profit by their experience.

There are men in Duluth today who have made fortunes buying timber at prices that manufacturers declared to be enormous at the time they bought. The latter would be very glad to get the timber today at the prices they then looked upon as exorbitant.

Speaking of strong men to name as candidates for congress, what's the matter with A. J. Halsted of the Brainerd Tribune? Mr. Halsted was elected mayor of Brainerd by a unanimous vote; he is well known in his district and would have the hearty support of the republican press. He is, by big odds, the strongest man in the district and would make a most able representative in congress. All in favor of A. J. Halsted, hands up.—Pillager Post.

## INIMICAL TO LABOR.

Such Are Traits, Says Orrin W. Potter, and He Scores Them.

Orrin W. Potter, the Chicago millionaire and former president of the Illinois Steel company, has declared against trusts.

Mr. Potter's two daughters, Gertrude Potter Daniels and Margaret Horton Potter, are known as the authors of several books, and in some of these productions the socialist spirit has been given such prominence as to arouse comment among those who knew of the wealth and social position of the family. Mr. Potter said:

"I resigned as president of the Illinois Steel company when it entered a trust. Trusts are inimical to the rights of the laboring man.

"I cannot consistently hold a position which would force me to put into execution measures of which my conscience cannot approve.

"Our system of taxation is infernal. What people are given to calling the middle and lower classes know this, and they are getting ripe for a revolution. They will not continue to live under such a system. I am only taxed \$500 for my house. It is wrong and should be taxed much more.

"I was in New York recently, and while walking along Broadway I had to stop a moment at the corner of Twenty-third street to allow a carriage to pass. It was a fine carriage drawn by a pair of splendid horses. A liveried coachman drove, and a liveried footman was in attendance. The carriage was open. Upon the rear seat sat a becaped French maid. Upon the seat beside her, sitting upon its haunches, was a blanketed dog. That dog was being driven out for an airing, and the maid was in attendance upon his dogship.

"While I stopped I looked beyond the carriage and saw a workingman carrying a baby and accompanied by his wife standing on the crossing. They were facing me, and their progress had been checked like mine by the passing of the carriage. The workingman was clean, but threadbare. He looked hungry, and his wife looked worn. The babe looked strong and well. In the three faces was the story of the sacrifice for the sake of the little one.

"I saw that workingman look at the splendid equipage that was passing. He looked at the coachman, the footman, the maid and, lastly, the dog. I saw something come into that man's eyes, and I saw his lips grow firm. I knew what it was that was looking out of his eyes, and I say that if the look had been put into spoken words they would have found an echo in my heart.

"I have taken the word of fifty men, representing 10,000 wageworkers, without a word of writing to bind them to what they had agreed and was as well satisfied with their word as I would have been with the word of the fifty foremost business men of Chicago."

## A Pittsburg Plan.

The Building Trades council of Pittsburg will shortly put in operation a plan whereby it hopes to minimize disputes between builders and employees and to avoid strikes. Each trade represented in the council has an authorized business agent whose duty it is to visit all works to ascertain if the union scale and union rules are being regarded. Upon them falls the responsibility of causing strikes. The council itself will hereafter have a sole representative not identified with any particular trade whose duty it will be to visit architects and builders. The Building Trades council will ask them to specify union labor wherever practicable. None of the local architects has been advised of this plan, but it is understood that the idea will meet with a favorable reception. When a structure is to be erected under a tight time limit, it is to the advantage of the builder to avoid labor contentions and delays of all kinds. Once the plans and specifications have passed into the hands of the contractor the architect is not liable for the late completion of the structure. The responsibility falls upon the contractor. The council maintains that the plan will work to the interests of all trades and contractors.

## Employers Against Unionism.

The principle of the Employers' association—and when I speak of the Employers' association I mean practically all the capital in the city of San Francisco engaged in the wholesale and manufacturing business and, I am afraid, the banks also—is that unionism must be destroyed. They are not thinking of this union or that union or of the other union, they are not thinking of the teamsters or porters or packers, but they are thinking simply of unionism, and the principle upon which they start out, the principle on which they are rooted and founded, the principle on which to give the devil his due or rather to give the devils their due, for I believe there are many of them, the principle which they so persistently stand up for, is that unionism must be destroyed and that there must be no compromise with unionism. Unionism must be torn up by the roots, cut up and thrown into the fire, and the ashes of unionism must be scattered to the four winds of heaven. That is their principle.—Father Yorke in Address to San Francisco Workmen.

## Labor Dragged to Court.

The striking seamen and affiliated trades at San Francisco are confronted by a new problem. The masters are swinging another powerful club. The Sailors' union has been dragged into court by the Pacific Coast Steamship company, which, after rectifying the serious injury done by the defendants, individually and collectively, prays for damages against them for alleged violation of contract, boycotting, etc.

He expects to open a branch shop there and will put his son in charge. He has been a resident of this city thirteen years and says that he is here to stay for good now.

## CURBSTONE CHAT.

Ex Mayor Koop: I have not decided whether I will rebuild the mill at Backus or not.

M. J. Rielly: The necessity of gates on the Eighth and Sixth street crossing is a matter that should be agitated by the business men of the city. This is a rather important matter but of course not until some one has lost a limb or perhaps their life will the citizens begin to wake up.

Dr. Camp: We were hunting near Williston close to the Montana line. Deer hunting is no better there than here, but a party went out from Grand Forks and I was invited to go along. We had a delightful time.

Dr. Thabes: I see by the fortnightly report of the state board of health that smallpox is gaining ground with alarming rapidity in some localities. That is not the case here. There is not a case in the city at the present time.

Contractor Rowley: We are hustling things along and will be away and out of the opera house tomorrow night.

## Neighborhood Gossip.

Charles Vallency, brother of R. G. P. Vallency of Jamestown, was drowned Tuesday night in lake Superior at Duluth. The body was recovered.

George Ackerman, a passenger brakeman on the Chicago Great Western, was run over and instantly killed by a train at Hayfield, 18 miles from here. He lived at that place.

A sad drowning occurred at Detroit recently Frank Peters, a prominent mason and G. A. R. man, while skating on Detroit lake about noon, broke through the ice and was drowned.

Edward Clark, of Fergus Falls has had his legs and wrists filled with shot by a comrade who fired at him in the big woods at Moscow, supposing him to be a deer. The injuries are not serious.

Harry Rannels, of Ferris, was found dead near the railroad. There were gunshots through his right side and his head. A whisky bottle lay near and his gun at his feet. There are suspicions he was murdered.

The Sleepy Eye Land and Investment company, capitalized at \$50,000 has filed articles of incorporation with the secretary of state. The incorporators are Hans Moe, Otto W. Hagen, George W. Somerville, A. C. Van Hagen, John C. Holen, Frank H. Dyckman, John A. White, W. K. McFarland and Ingeval M. Olson.

A peculiar disease has been prevailing among the horses in Red Lake county. Dr. Brimhall, state veterinarian, accompanied by Dr. Wilson, the state bacteriologist, has gone to examine. In Red Lake county alone the loss this fall has amounted to thousands of dollars and the disease is spreading.

L. D. Mead, an aged peddler, of Winona, met instant death at Minnesota City, by being run down by the northbound fast mail train on the Milwaukee and St. Paul road as he was crossing the track in a wagon. Mead was muffled up in a fur coat and did not hear the train approaching. He was struck by the boiler head and badly crushed.

Big offers are being made for the carrying of coal from Lake Erie to the head of Lake Superior. All summer, while freights up lakes were very low, the coal men put off contracting sufficient tonnage, and now, as usual, when freights are likely to advance sharply, they make the advance a certainty by pushing forward all the stuff they can move. This is not the way the ore people handle their tonnage business.

The case brought by Andrew Johnson Emery, a colored man, against Samuel Hill came on for trial in the district court late Tuesday evening at Fergus Falls. Mr. Hill having arrived from the West during the day. Emery claims that he was to have \$30 per month for taking care of Mr. Hill's club house at Otter Tail lake, and that he is now entitled to \$1,900, while Mr. Hill claims that he was only to have the use of the land adjoining the resort.

The uniform good crops, general throughout Clay county, have been particularly beneficial to local farmers, many of whom were impecuniated by the failures of past years. Much building is being done; several large business houses are now nearing completion. Generally speaking, the crops on the Minnesota side of the Red River valley were fully as good as those of Dakota. Much interest attaches to the growth of corn and plants hitherto considered foreign to this locality.

Graff Brothers' big flour mill at Lake Crystal was destroyed by fire at 1 o'clock Tuesday morning. Along with it went the electric lighting plant, the water works power and the telephone system. The fire started in an upper story of the mill, probably from spontaneous combustion, as a loud explosion gave the warning. When the water works power was crippled, little could be done to save the property, and the flames simply burned themselves out. The loss on mill and machinery is \$60,000; on grain and flour, \$15,000. The total insurance on the plant is \$24,000. The mill was built in 1893 at a cost of \$35,500. It was good property, and will be rebuilt at once. The loss on mill and public plants is \$100,000 or more.

"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds too, down to the very verge of consumption.

## LUMBERMEN DIFFER IN THEIR OPINIONS.

Some Claim That the Stumpage Owners Held Their Prices Too High.

PRICE ALMOST PROHIBITIVE.

Far-Sighted Manufacturers Stepped in and Bought the Timber When Cheap.

At the time of the sale recently by State Auditor Dunn, of stumpage in this state there was some spirited bidding, and the advance in pine timber has been little short of remarkable as the record of recent transfers will show.

It will be remembered that J. J. Howe, of this city, at the time of the big sale in an interview in St. Paul, stated that should he decide to have an auction sale he would hire State Auditor Dunn. He believed the prices were way out of sight. But it is interesting to note the difference of opinion on the subject between the lumbermen of Northern Minnesota and the lumbermen who are short of pine.

During the past week there have been several large timber land buyers through this vicinity but it is claimed that they were unable to touch any pine tract in Northern Minnesota at the prices offered. The buyers declare that there is not a foot of timber land left in the northern part of the state, unless owned by the government, upon which the owner has not placed a price that is almost prohibitive. Lumbermen claim that the pine has been over-estimated and over-priced. One prominent Wisconsin buyer a few days ago is said to have offered \$4.50 per thousand for the timber in a few scattered tracts in the northern part of this state, the timber on which is not very accessible, but the offer was promptly refused. The estimated amount of the timber was 15,000,000 feet.

On the other hand, the owners of timber claim that the manufacturers have been saying the same thing of the timber in Northern Minnesota for the past five to eight years. When they could buy it as low as \$1.50 a thousand they would not do it because they could buy logs cheaper than they could buy the timber and log it. They did not look ahead, but seemed to act on the assumption that the condition then prevailing would continue as long as they wanted it to. As the rise in price began they could not change their ideas to meet the changed condition of affairs and hence, according to the timbermen, they have ever since been crying against the exorbitant price placed on timber.

The far-sighted manufacturers stepped in and bought the timber when it was cheap and they are the ones that are reaping the great benefit from the advance. The number who did so, however, is small. There are probably only two or three large tracts in the hands of manufacturers that were bought in that way. Some of the manufacturers who neglected the golden opportunity, too, were men who had operated in Michigan, whose timber underwent practically the same evolution. They failed to profit by their experience.

There are men in Duluth today who have made fortunes buying timber at prices that manufacturers declared to be enormous at the time they bought. The latter would be very glad to get the timber today at the prices they then looked upon as exorbitant.

Speaking of strong men to name as candidates for congress, what's the matter with A. J. Halsted of the Brainerd Tribune? Mr. Halsted was elected mayor of Brainerd by a unanimous vote; he is well known in his district and would have the hearty support of the republican press. He is, by big odds, the strongest man in the district and would make a most able representative in congress. All in favor of A. J. Halsted, hands up.—Pillager Post.

## INIMICAL TO LABOR.

Such Are Trusts, Says Orrin W. Potter, and He Scores Them.

Orrin W. Potter, the Chicago millionaire and former president of the Illinois Steel company, has declared against trusts.

Mr. Potter's two daughters, Gertrude Potter Daniels and Margaret Horton Potter, are known as the authors of several books, and in some of these productions the socialist spirit has been given such prominence as to arouse comment among those who knew of the wealth and social position of the family. Mr. Potter said:

"I resigned as president of the Illinois Steel company when it entered a trust. Trusts are inimical to the rights of the laboring man.

"I cannot consistently hold a position which would force me to put into execution measures of which my conscience cannot approve.

"Our system of taxation is infernal. What people are given to calling the middle and lower classes know this, and they are getting ripe for a revolution. They will not continue to live under such a system. I am only taxed \$500 for my house. It is wrong and should be taxed much more.

"I was in New York recently, and while walking along Broadway I had to stop a moment at the corner of Twenty-third street to allow a carriage to pass. It was a fine carriage drawn by a pair of splendid horses. A liveried coachman drove, and a liveried footman was in attendance. The carriage was open. Upon the rear seat sat a becaped French maid. Upon the seat beside her, sitting upon its haunches, was a blanketed dog. That dog was being driven out for an airing, and the maid was in attendance upon his dogship.

"While I stopped I looked beyond the carriage and saw a workman carrying a baby and accompanied by his wife standing on the crossing. They were facing me, and their progress had been checked like mine by the passing of the carriage. The workman was clean, but threadbare. He looked hungry, and his wife looked worn. The babe looked strong and well. In the three faces was the story of the sacrifice for the sake of the little one.

"I saw that workman look at the splendid equipage that was passing. He looked at the coachman, the footman, the maid and, lastly, the dog. I saw something come into that man's eyes, and I saw his lips grow firm. I knew what it was that was looking out of his eyes, and I say that if the look had been put into spoken words they would have found an echo in my heart.

"I have taken the word of many men, representing 10,000 wageworkers, without a word of writing to bind them to what they had agreed and was as well satisfied with their word as I would have been with the word of the fifty foremost business men of Chicago."

## A Pittsburg Plan.

The Building Trades council of Pittsburg will shortly put in operation a plan whereby it hopes to minimize disputes between builders and employees and to avoid strikes. Each trade represented in the council has an authorized business agent whose duty it is to visit all works to ascertain if the union scale and union rules are being regarded. Upon them falls the responsibility of causing strikes. The council itself will hereafter have a sole representative not identified with any particular trade whose duty it will be to visit architects and builders. The Building Trades council will ask them to specify union labor wherever practicable. None of the local architects has been advised of this plan, but it is understood that the idea will meet with a favorable reception. When a structure is to be erected under a tight time limit, it is to the advantage of the builder to avoid labor contentions and delays of all kinds. Once the plans and specifications have passed into the hands of the contractor the architect is not liable for the late completion of the structure. The responsibility falls upon the contractor. The council maintains that the plan will work to the interests of all trades and contractors.

## Employers Against Unionism.

The principle of the Employers' association—and when I speak of the Employers' association I mean practically all the capital in the city of San Francisco engaged in the wholesale and manufacturing business and, I am afraid, the banks also—is that unionism must be destroyed. They are not thinking of this union or that union or of the other union, they are not thinking of the teamsters or porters or packers, but they are thinking simply of unionism, and the principle upon which they start out, the principle on which they are rooted and founded, the principle on which to give the devil his due or rather to give the devils their due, for I believe there are many of them, the principle which they so persistently stand up for, is that unionism must be destroyed and that there must be no compromise with unionism. Unionism must be torn up by the roots, cut up and thrown into the fire, and the ashes of unionism must be scattered to the four winds of heaven. That is their principle.—Father Yorke in Address to San Francisco Workmen.

## Labor Dragged to Court.

The striking seamen and affiliated trades at San Francisco are confronted by a new problem. The masters are swinging another powerful club. The Sailors' union has been dragged into court by the Pacific Coast Steamship company, which, after reciting the serious injury done by the defendants, individually and collectively, prays for damages against them for alleged violation of contract, boycotting, etc.

It will occur to you that there are a good many good tailors who are getting good stiff prices for good tailoring. And then you may recall the fact that the same kind of good tailoring can be had at just about 33 1/3% less, and you will turn to us for proof.

We sell Royal Tailoring—garments made by The Royal Tailors of Chicago—made-to-your-measure—from goods you may select—quality, style, fit, and workmanship the best—no sweat-shop labor—satisfaction or you keep your money—fair enough, isn't it?

**ST. PAUL'S CHURCH**  
**CALLS A RECTOR.**  
  
Special Meeting Held Last Night  
And Decisive Step Is  
Taken.

**REV. MR. FAARAR IS CALLED.**  
  
He Has Accepted But Will Notify  
Vestry Monday  
Morning.

There was a special meeting of the vestry of St. Paul's Episcopal church last night, called for the purpose of considering candidates for the rectorship of the parish.  
They finally decided to extend a call to Rev. Charles E. Faarar, of Lake Benton, Minn. Rev. Mr. Faarar was in the city yesterday and was notified last night of the decision of the vestry. To a reporter of THE DISPATCH he stated this morning that he had not as yet notified the body that he would accept the call but would take the matter under consideration until the first of the week when he would notify them. He returned this afternoon to Lake Benton. He stated further that as far as he knew he would accept the call, although he wanted some little time to consider the matter.

Rev. Mr. Faarar is one of the brightest young men of the Episcopal church of this state. He is a graduate of Seabury, of Fairbault, and has been in the ministry for six years. He was two years at Hutchinson this state and has been at Lake Benton four years. He is a polished speaker and a hard worker and St. Paul's church members are to be congratulated on the selection.

**BIG RUSH FOR SEATS.**  
  
Best Seats in the Brainerd Opera House  
for the Opening Are Going Faster  
Than Was Expected.

The number of persons who have signed for the best seats in the theatre for the opening night of the new Brainerd opera house far exceeds the expectation of those who have the matter in charge. The \$7.50 seats, which are in the parquet, 187 in number, have mostly been sold and those who desire to get in here will have to hurry. Seats are now being sold for the whole house. The seats in the first row in the parquet circle will sell for \$6.50 apiece and several of these have also been taken. All the other seats back of the first row in the parquet circle will sell at \$5. In the first and second row in the balcony, the seats will be sold at \$5. apiece, and all other seats in the balcony at \$2.50 each.

Everyone who buys tickets or signs for them will be given an equal chance to get a choice in the respective sections. For instance the plan for the parquet or \$7.50 seats will be put up Wednesday morning at 9 o'clock, so that the first there will be first served. The parquet circle plan will be put up at 2 o'clock on Wednesday afternoon and the balcony at 7.30 o'clock Wednesday evening. Those who wish to get tickets in any of the sections will have to hurry. The advance agent of the "Casino Girl" will be in the city Monday and the paper will be put up.

**AMUSEMENTS.**  
  
"The Casino Girl" is undoubtedly the most pretentious of the musical shows that will be seen at the Brainerd Opera House this season. This piece, which was originally produced at the Casino in New York and has to its credit a record of 400 performances in that city, has achieved international fame, having played for 300 nights at the Shaftesbury Theatre, London. The production which comes for the opening December 2, will be the same in every detail, as that which has won fame on both sides of the Atlantic ocean. The organization will be under the personal direction of Samuel E. Kork.

**INVESTING THEIR CAPITAL.**  
  
Some Minneapolis Gentlemen will Build a  
Large Number of Cottages  
In the City.

Some Minneapolis capitalists have interested themselves in Brainerd, and they will in a short time commence the construction of a number of cottages, they realizing that with the growth of the city, there is an excellent opportunity for the judicious investment of capital in this line.

The gentlemen have decided to erect these cottages in the vicinity of the Brainerd Lumber company mills, more particularly at this time for the convenience of the men who work at the mill. This feature of securing men to work in the mill during the summer has been a great inconvenience, and the time has arrived when something must be done to hold the men. The first lot of cottages to be built will number about 15. If it is found later that this number is inadequate to supply the demand more houses will be put up.

The houses that will be put up will be modern, suitable for small families and men who cannot afford to pay exorbitant rentals. The gentlemen interested have not organized a company, but have just put their money into the scheme as a sort of pool. They do not intend to confine themselves to the mill district alone, but they will branch out finally to other parts of the city and eventually, if they find that their expectations in the venture are realized, they will organize a company of some kind.

**COMMITTEES ARE NAMED.**  
  
To Make Necessary Arrangements for the  
Ceremonies of the "Lodge of  
Sorrow," B. P. O. E.  
There was a meeting of Brainerd Lodge, B. P. O. E. last night and P. M. Zakariasen, Thomas E. Rutherford and Henry G. Poppenberg were novices who were given a few "sideshows" in connection with the initiation of members into the order.

At the business session of the lodge last night Exalted Ruler Sanborn appointed committees to act in connection with the ceremonies of the Lodge of Sorrow. All members are expected to be at the hall on that day and they will go in a body to Gardner hall where the services will be held.

The following committees were named:  
Decorations—C. H. Kylo, J. E. Dougherty and Dr. D. M. McDonald.  
Program and Music—E. O. Webb, George W. Grewcox and R. L. Georgeson.

**THEIR ANNUAL BALL.**  
  
Members of the Northern Pacific Library  
Association Will Enjoy A Social  
Time This Evening.

This evening the Northern Pacific Library association gives its annual ball at Gardner hall. This is the seventeenth annual ball and each year a large sum of money is realized from this source to maintain the association. Heretofore some sort of an entertainment has been given in connection with the ball, but this year this feature has been eliminated.

The members should have a good turnout tonight. Everybody should help the association by buying a ticket. There will be good music.

**Chewed Rag With Hello Girl.**  
  
Lineman Vottman, of the long distance telephone, last week tendered his resignation to the company, all on account of the fact that the company charged him four dollars for talking, or rather visiting, with the operators along the line. Vottman, who had his headquarters at Wadena, was in the office one night, and kept up a spirited conversation with four or five operators in towns around. One of the officers of the company happened to be in the office at Brainerd, at the time, and he got on the line and listened to the entire conversation. He ordered that Vottman be charged with the time he had visited with the girls at the regular rates, and when he received his monthly check, he found he was four dollars shy. The company claims that while operators are visiting on the time, regular business may be crowded off.—Perham Bulletin.

**THE WRONG TRIO**  
**WAS IN LIMBO.**  
  
The Three Illinois Hunters Make  
Their Escape From Game  
Warden Saunders.

**WERE AFRAID TO FACE JUSTICE**  
  
Iowa Gentlemen Taken In Here  
Yesterday Answered Description  
of Other Trio.

Deputy Game Warden Saunders arrived in this city this morning from the north and the three gentlemen who were arrested at his instance yesterday by Chief Nelson, B. A. Michener, L. A. Munger and W. Dawson, they having just returned from a hunting expedition up north, feel a little better than they did. They are not the men wanted by Mr. Saunders at all, and as soon as he arrived in the city were released.

The men that the wily deputy was after were the three Illinois parties who were arrested the fore part of the week near Hackensack. They were taken to Walker, and as they were rather prominently connected they were not kept under very strict guard, promising to be good. They were a foxy trio, however, and night before last they gave the deputy warden the slip, hired a team and drove out of the country. The description of the three men was, of course, wired to Chief Nelson, of this city, and singular as it may seem the three men nabbed yesterday answered the description exactly. The three men who made their escape were to have had a hearing yesterday.

The men who made their escape are T. C. Sager, G. W. Johnson, D. W. Burbank of Genoa, Ill., and E. Well, of Chicago. It seems that these men had the audacity to come in this state to hunt for big game without procuring a non-resident license. The deputy game warden was put on their trail and they were located near Hackensack, where they had camped out for a fine hunting season.

**OFFICERS ELECTED.**  
  
Butter and Cheese Men in Busy Session at  
St. Cloud—Pres. Sondergaard Re-  
elected President.

At the meeting of the association of butter and cheese makers of the state being held at St. Cloud officers were elected yesterday.

President H. T. Sondergaard, of Litchfield, was re-elected. The other officers chosen were: Vice president, E. K. Slater of Wilbert; secretary, J. K. Bennett of Owatonna; treasurer, B. D. White of St. Paul.

The choice of the next meeting place was left to the executive committee.  
The resolutions present the thanks of the convention to the citizens of St. Cloud and to the railroad companies for the usual courtesies; to Gov. Van Sant for his excellent address; to Commissioner McConnell for his zealous and effective work, and to Professor Haecker and officers of the association. The state educational contest is endorsed and the legislature petitioned for a small appropriation to make it a permanent feature in pushing the dairy interests of the state.

It is recommended that the by-laws be so amended that the association can become self supporting and be able to extend its usefulness and influence.

M. E. Sudendorf was indorsed for superintendent of the dairy exhibits at the St. Louis exposition.

Indorsement was also given the Grout bill.

The Hubbard County Enterprise, of Park Rapids was sold Wednesday by W. C. Conrad to Henry R. Cobb. It was established by Mr. Cobb in 1882. After some years' absence, he returned in 1899 and took charge of the paper editorially. He now becomes again the sole proprietor.

**INCREASE IN SMALLPOX.**  
  
Fortnightly Report of the State Board of  
Health is Rather Alarming For  
Some Localities.

The fortnightly report of the state board of health shows an alarming increase in smallpox which Secretary Bracken feared would come with the cold weather. During the two weeks ending Wednesday 216 new cases were reported, 72 more than for the two weeks ending Nov. 4 and 79 more than for the two weeks ending Oct. 23.

The disease is more widespread than before, new cases being reported from thirty-four counties and sixty-six localities. The previous report showed new cases of smallpox from only forty-two localities and the report for the fortnight ending Oct. 23 only thirty-five localities.

The largest number of cases are reported from Red Lake village, which has 39 new cases. Red Lake county reports 51 new cases, 25 more than were reported by any county in the previous fortnight. Starbuck, Pope county, is second, with 18 new cases, and Norman county also reports 18 new cases. Other counties reporting a large number of cases are: Otter Tail, 17 cases; Polk 14 cases; Clay, 12 cases; Duluth, 12 cases, and Marshall county, 11 cases. Two new cases are reported from Minneapolis and none from St. Paul.

"The increase is what we have been expecting when cold weather came," said Dr. Bracken, secretary of the state board of health, yesterday. "It will probably not be long until the fortnightly reports will show 300 or more new cases."

**CROW WING ITEMS.**  
  
W. W. Hutchins is pressing hay for Chas. Shontell.  
G. W. Young is having trouble with his new corn harvester.

The work train was down on Sunday picking up steel rails.

W. A. Thornberry, of Rice, started for the woods to work on Monday.

Courtney Benson has traded his eighty acres of land to George McGregor for stock.

Mrs. Stephen Swartout is staying at her father's, Levi Bailey, while they are up hunting.

Mr. and Mrs. Henry Smith, of Bay Lake, after a pleasant visit with relatives in the southern part of the state, returned to their home last week.

Levi Bailey's house narrowly escaped a fire last week. A carpet was in some way thrown against a stove and caught fire, but was extinguished.

Indian Commissioner Jones Anxious to  
Have the Governor Take Some  
Action Mille Lacs Indians.

Indian Commissioner Jones has addressed a letter to Gov. Van Sant of Minnesota concerning lands embraced in the Mille Lacs reservation used by the Indians for burial purposes. The state was asked some years ago to relinquish land to the government for the use of the Indians, but no reply was ever received to the letter of the department. The land in question has been used for many years by the Indians to bury the bones of their fathers. There is a good deal of Indian sentiment attaching to it and the department is desirous that the burial ground should be reserved for the benefit of the Indians.

## LIST HAS NOT GROWN

NO MORE VICTIMS OF THE COLORADO MINE DISASTER HAVE BEEN FOUND.

## THOUGHT BUT FEW REMAIN

But One Part of the Workings Remains Unsearched and That Is Inaccessible on Account of Gas—Many of the Miners Are Foreigners and Did Not Report After Making Good Their Escape.

Telluride, Colo., Nov. 22.—The developments in the Smuggler-Union mine disaster have not served to remove the doubt as to the number of the victims and it seems unlikely that the exact number will be known for several hours. As yet the list remains the same, 22 dead and one in a precarious condition from inhaling the deadly gas and smoke drawn into the mine from the burning buildings about the mouth of the Bullion tunnel. It is possible that a search of the ninth level, which is still in part inaccessible on account of gas, will reveal the bodies of other victims, but a party headed by Superintendent Collins went through all the other portions of the mine and found no more dead bodies. The unexplored portion of the ninth level is about 400 feet in length. It will not be safe to enter this part of the drift before morning and perhaps much later.

Superintendent Collins said that he did not believe the death roll would be increased by more than one or two and possibly not at all. It is said two or three men are missing, but it is not certain, as the men are mostly foreigners and many of them did not report after making their escape from the mine. It was only by the most careful searching that many of the survivors were located. The work of clearing away the debris of the burned buildings and repairing the tramway has already begun, but it is said that it will be some time before the mine can be reopened.

## LOWER COURT REVERSED.

Chicago Board of Trade Need Not Supply Bucketshops With Quotations.

Chicago, Nov. 22.—The appellate court has added another to the board of trade's victories in its fight to prevent bucketshops from trading on its quotations. By this decision the court reversed the decree of Judge Vail of the circuit court, who granted a permanent injunction restraining the cutting off of quotations from the Central Stock and Grain Exchange. The lower court declared the defendant concern was not a bucketshop, and that even if it was the quotations were public property and the board has no right to discriminate.

The appellate court also dissolved the injunction restraining the board from disciplining its own members, under its rules, for trading with the defendant company.

The Central Grain and Stock Exchange is the last bucketshop in Chicago still posting board of trade quotations, and the decision is the more important because it was supplying them to branch offices in many cities.

## BOER OFFICER ELECTED.

Colonel Lynch Defeats Mr. Plunkett in the Galway Election.

Dublin, Nov. 22.—The election in the parliamentary contest in Galway between Colonel Arthur Lynch (who fought as a colonel in the Boer army) and Horace Plunkett, Unionist, resulted in a victory for the former by the following figures: Lynch 1,247, Plunkett 473.

In the event of Colonel Lynch's election being quashed on the ground that he is a traitor, Mr. Plunkett says he will decline to take the seat thus reverting to him; that he will be returned straight or not at all. Colonel Lynch's friends seem satisfied that he will attempt to take the seat.

## NEW INDICTMENTS FOUND.

Greenville (Ia.) Bank Robbers Charged With First Degree Murder.

Sioux City, Ia., Nov. 22.—The Buena Vista county grand jury, in session at Storm Lake, has returned new indictments against Louis Brooke, white, and Albert Phillips, colored, who robbed the safe in the Bank of Greenville last Saturday morning, for murder in the first degree in the killing of John Sundblad of Albert City. Counsel has been appointed to defend them and they will ask a change of venue to another county.

Charles Lodine, the constable of Albert City, who was also shot by Brooke and Phillips, is sinking rapidly and cannot live.

## NO PROSPECT OF SETTLEMENT.

Mr. Dickinson Expects to Go to Constantinople Soon.

Sofia, Bulgaria, Nov. 22.—Mr. Dickinson, the United States diplomatic agent here, will leave in a day or two for Constantinople. There is absolutely no prospect of a settlement with Miss Stone's abductors. The departure of Mr. Dickinson will probably have a good effect upon the brigands who have Miss Stone in their possession, as they may fear to lose everything by not accepting Mr. Dickinson's proposals.

## Will Test New Floating Dry Dock.

Washington, Nov. 22.—The battleship Illinois has left Newport News for New Orleans, where the navy department has sent her to test the large floating dry dock at the New Orleans naval station. In the interests of safety the collier Sterling, which is now loading at Lamberts Point, will proceed to New Orleans and take her place in the dock, and then, if all goes well, the Illinois will be put in order to finally test its strength.

## ORDER OF THE MIDNIGHT SUN.

Organized to Overthrow Canadian Rule in the Yukon.

Seattle, Wash., Nov. 22.—The Evening Tribune prints a story which is offered as confirmation of a report published in the San Francisco Call to the effect that a conspiracy had been planned covering the entire Northwest Territory for the overthrow of Canadian rule and the establishment of an independent republic.

The Times lays great stress on the story obtained from Fred Clark, formerly a stage manager in this city, but who has been in the Yukon for some time, in which he admits a knowledge of the Order of the Midnight Sun, which is supposed to have been organized for the sole purpose of the rebellion.

It was claimed that the order was originally instituted in strict secrecy at Dawson in December of 1900, and from there spread along the length of the upper Yukon, with branches as far as Circle City on one hand, and to Skagway and Atlin in the other direction. It is claimed that in the early days of the organization a circular was issued and secretly distributed to disaffected miners on the upper Yukon, in which 19 different reasons were given for an uprising. These dealt with defective mining laws, corruption of officials, royalty, liquor traffic and gambling delays in the court, British Columbia alien duties, miners and loggers' licenses, recording fees and boundary disputes. The conspiracy is said to be now dead owing to the publication of its secrets.

## Redmond at Ottawa.

Ottawa, Ont., Nov. 22.—The Irishmen of Ottawa gave a cordial welcome to John Redmond, Thomas O'Donnell and P. A. McHugh, the Irish Nationalist envoys. Sir Wilfrid Laurier and Hon. R. W. Scott, secretary of state, attended the luncheon given to Mr. Redmond and his colleagues.

## Dallas Raises the Quarantine.

Dallas, Tex., Nov. 22.—The quarantine of a large number of infected ports in various countries has been raised by State Health Officer Tabor as the danger is considered past. Governor Sayers has issued a proclamation in harmony with Dr. Tabor's action.

## Report Is Unconfirmed.

London, Nov. 22.—There is no confirmation of the report circulated by a news agency in the United States of the death of Count Tolstoy. A letter to The Times from Odessa, dated Nov. 12, reports that he had quite recovered from his illness and resumed work.

## The Engine Jumped the Track.

Pine Bluff, Ark., Nov. 22.—Conductor Walter Noble of Jonesboro was killed and the brakeman, fireman and engineer of a Cotton Belt fast freight were probably fatally injured in a wreck near Goldman, A. T. The engine jumped the track and turned over.

**Brewery Fined Under Anti-Trust Law.**  
Dallas, Tex., Nov. 22.—The Fort Worth brewer v at Austin has pleaded guilty to the charge of violating the anti-trust law and was fined \$5,500. The other accused breweries will do the same, but will be fined in proportion to their accrued penalties.

## Striking a Light With a Popgun.

The inhabitants of the countries bordering on India have their own methods of making fire. A Burmese messenger recently brought a note to an English official, and the latter observed something resembling a boy's popgun hanging by the messenger's side. Curiosity prompted him to ask the native what it was, and he was surprised to find that it was a machine for making fire.

The native exhibited the apparatus and explained the working, concluding with a practical demonstration. It was a tube, closed at one end and fitted with a piston. At the end of the piston was a groove or cavity, smeared with wax, which was used for making thread or inflammable material adhere to it. The tinder, to keep the old name, is pressed on the wax when a light is required and is not kept there always.

Placing the wisp of cotton on the wax, the native inserted the tightly fitting piston in the tube, then forced it along the latter by giving it a sharp blow. On withdrawing the piston the cotton was found to be alight, having been ignited by the concussion with the compressed air.—Pearson's Weekly.

## Guizot, Thiers and Bismarck.

One day I was invited to dinner with the Count of Enzenberg at the residence of Prince von Bismarck in Berlin. The count, a former charge d'affaires in Paris, was a great collector of autographs. After a repast the count exhibited a sheet of paper on which Guizot and Thiers had affixed their signatures. "It is very interesting," said Prince von Bismarck. "Allow me to show this to my wife." (She was sick in bed at that time.) In a few minutes the chancellor returned, and, returning the sheet of paper to the diplomat from Wurttemberg, he added, "I hope that I did not spoil it by writing something on it."

Here follows what was written on the paper:

My long life has taught me that it is necessary to forgive a good deal and forget nothing.

A little forgetfulness does not diminish the sincerity of forgiveness.

My own life has taught me that I have a great deal to forget and a great deal for which to be forgiven.

—Berlin Freie Press.

## Blunt Judge Morris.

On one occasion, in trying an abduction case, Lord Morris, once chief justice of Ireland, addressed the jury as follows: "I am compelled to direct you to find a verdict of guilty in this case, but you will easily see that I think it is a trifling thing, which I regard as quite unfit to occupy my time. It is more valuable than yours. At any rate, it is much better paid for. Find, therefore, the prisoner guilty of abduction, which rests, mind ye, on four points—the father was not averse, the mother was not opposed, the girl was willing and the boy was conveyant."

The jury found the prisoner guilty, and the judge sentenced him to remain in the dock till the rising of the court. Hardly had he delivered sentence than, turning to the sheriff, Lord Morris said: "Let us go," and, looking at the prisoner, he called across the court, "Marry the girl at once, and God bless you both."

## How High Birds Fly.

A Strassburg aeronaut says he has seen an eagle at the height of 3,000 yards, and again a pair of storks and a buzzard 900 yards above the sea level. On March 10, 1890, some aeronauts observed a lark flying at a height of 1,000 yards. On July 18, 1890, another balloon met a couple of crows at an altitude of 1,400 yards. These, however, are exceptions. Birds are hardly ever seen above a height of 1,000 yards; even above 400 yards they are not frequent.

## TWENTY LIVES LOST.

Norwegian Steamer Ella Wrecked on the Newfoundland Coast.

Halifax, N. S., Nov. 18.—The terrible gale which has been raging on the Newfoundland coast during the past three days has carried death and destruction in its track. Shipping has suffered severely as a result of the storm and many lives have been lost. A private dispatch which reached Lewisburg, C. B., states that the Norwegian steamer Ella, under charter to the Black Diamond Line company, had been lost on the Newfoundland coast in the vicinity of Belle Isle with all hands. The steamer left Montreal on Friday with a general cargo for St. John's, N. F. The Ella was 901 tons register and was built at Sunderland in 1898. This was her last trip of the season on the route. She carried a crew of about 20 men.

## WILL ATTACK THE REBELS.

Colombian General at Colon Will Attempt to Terminate the Deadlock.

Colon, Colombia, Nov. 18.—The Colombian gunboat General Pinzon has arrived here from Savanilla with 700 troops. In view of the unchanged conditions on the isthmus this evidence of the government's policy to reinforce its forces here gives credence to the presumption that General Carlos Alban, military commander of this district, has finally resolved to lead a strong attacking force against the insurgents within his jurisdiction and attempt to terminate the present wearisome deadlock between the Colombian rebels and their government.

## EULOGIZES LI HUNG CHANG.

Empress Dowager Showers Honors on the Dead Statesman's Relatives.

Peking, Nov. 18.—The empress dowager has issued an edict eulogizing the late Li Hung Chang and ordering the erection of a memorial arch near his birthplace. The edict also directs that the rank of marquis, conferred upon the eldest son of the late Chinese statesman in his own right, shall descend through 25 generations. It confers high rank upon the other sons of Earl Li, upon whom the posthumous rank of marquis has been bestowed, and confers dignities upon his grandsons, together with lucrative offices.

## LIST HAS NOT GROWN

**NO MORE VICTIMS OF THE COLO-  
RADO MINE DISASTER HAVE  
BEEN FOUND.**

## THOUGHT BUT FEW REMAIN

But One Part of the Workings Remains Unsearched and That is Inaccessible on Account of Gas—Many of the Miners Are Foreigners and Did Not Report After Making Good Their Escape.

Telluride, Colo., Nov. 22.—The developments in the Smuggler-Union mine disaster have not served to remove the doubt as to the number of the victims and it seems unlikely that the exact number will be known for several hours. As yet the list remains the same, 22 dead and one in a precarious condition from inhaling the deadly gas and smoke drawn into the mine from the burning buildings about the mouth of the Bullion tunnel. It is possible that a search of the ninth level, which is still in part inaccessible on account of gas, will reveal the bodies of other victims, but a party headed by Superintendent Collins went through all the other portions of the mine and found no more dead bodies. The unexplored portion of the ninth level is about 400 feet in length. It will not be safe to enter this part of the drift before morning and perhaps much later.

Superintendent Collins said that he did not believe the death roll would be increased by more than one or two and possibly not at all. It is said two or three men are missing, but it is not certain, as the men are mostly foreigners and many of them did not report after making their escape from the mine. It was only by the most careful searching that many of the survivors were located. The work of clearing away the debris of the burned buildings and repairing the tramway has already begun, but it is said that it will be some time before the mine can be reopened.

## LOWER COURT REVERSED.

Chicago Board of Trade Need Not Supply Bucketshops With Quotations.

Chicago, Nov. 22.—The appellate court has added another to the board of trade's victories in its fight to prevent bucketshops from trading on its quotations. By this decision the court reversed the decree of Judge Vail of the circuit court, who granted a permanent injunction restraining the cutting off of quotations from the Central Stock and Grain Exchange. The lower court declared the defendant concerned was not a bucketshop, and that even if it was the quotations were public property and the board has no right to discriminate.

The appellate court also dissolved the injunction restraining the board from disciplining its own members, under its rules, for trading with the defendant company.

The Central Grain and Stock Exchange is the last bucketshop in Chicago still posting board of trade quotations, and the decision is the more important because it was supplying them to branch offices in many cities.

## BOER OFFICER ELECTED.

Colonel Lynch Defeats Mr. Plunkett in the Galway Election.

Dublin, Nov. 22.—The election in the parliamentary contest in Galway between Colonel Arthur Lynch (who fought as a colonel in the Boer army) and Horace Plunkett, Unionist, resulted in a victory for the former by the following figures: Lynch 1,247, Plunkett 473.

In the event of Colonel Lynch's election being quashed on the ground that he is a traitor, Mr. Plunkett says he will decline to take the seat thus reverting to him; that he will be returned straight or not at all. Colonel Lynch's friends seem satisfied that he will attempt to take the seat.

## NEW INDICTMENTS FOUND.

Greenville (Ia.) Bank Robbers Charged With First Degree Murder.

Sioux City, Ia., Nov. 22.—The Buena Vista county grand jury, in session at Storm Lake, has returned new indictments against Louis Brooke, white, and Albert Phillips, colored, who robbed the safe in the Bank of Greenville last Saturday morning, for murder in the first degree in the killing of John Sundblad of Albert City. Counsel has been appointed to defend them and they will ask a change of venue to another county.

Charles Lodine, the constable of Albert City, who was also shot by Brooke and Phillips, is sinking rapidly and cannot live.

## NO PROSPECT OF SETTLEMENT.

Mr. Dickinson Expects to Go to Constantinople Soon.

Sofia, Bulgaria, Nov. 22.—Mr. Dickinson, the United States diplomatic agent here, will leave in a day or two for Constantinople. There is absolutely no prospect of a settlement with Miss Stone's abductors. The departure of Mr. Dickinson will probably have a good effect upon the brigands who have Miss Stone in their possession, as they may fear to lose everything by not accepting Mr. Dickinson's proposals.

## Will Test New Floating Dry Dock.

Washington, Nov. 22.—The battleship Illinois has left Newport News for New Orleans, where the navy department has sent her to test the large floating dry dock at the New Orleans safety station. In the interests of safety the collier Sterling, which is now loading at Lamberts Point, will proceed to New Orleans and take her place in the dock, and then, if all goes well, the Illinois will be put in order to finally test its strength.

## ORDER OF THE MIDNIGHT SUN.

Organized to Overthrow Canadian Rule in the Yukon.

Seattle, Wash., Nov. 22.—The Evening Tribune prints a story which is offered as confirmation of a report published in the San Francisco Call to the effect that a conspiracy had been planned covering the entire Northwest Territory for the overthrow of Canadian rule and the establishment of an independent republic.

The Times lays great stress on the story obtained from Fred Clark, formerly a stage manager in this city, but who has been in the Yukon for some time, in which he admits a knowledge of the Order of the Midnight Sun, which is supposed to have been organized for the sole purpose of the rebellion.

It was claimed that the order was originally instituted in strict secrecy at Dawson in December of 1900, and from there spread along the length of the upper Yukon, with branches as far as Circle City on one hand, and to Skagway and Atlin in the other direction. It is claimed that in the early days of the organization a circular was issued and secretly distributed to disaffected miners on the upper Yukon, in which 19 different reasons were given for an uprising. These dealt with defective mining laws, corruption of officials, royalty, liquor traffic and gambling, delays in the court, British Columbia alien act duties, miners and loggers' licenses, recording fees and boundary disputes.

The conspiracy is said to be now dead owing to the publication of its secrets.

## Redmond at Ottawa.

Ottawa, Ont., Nov. 22.—The Irishmen of Ottawa gave a cordial welcome to John Redmond, Thomas O'Donnell and P. A. McHugh, the Irish Nationalist envoys. Sir Wilfrid Laurier and Hon. R. W. Scott, secretary of state, attended the luncheon given to Mr. Redmond and his colleagues.

## Dallas Raises the Quarantine.

Dallas, Tex., Nov. 22.—The quarantine of a large number of infected ports in various countries has been raised by State Health Officer Tabor as the danger is considered past. Governor Sayers has issued a proclamation in harmony with Dr. Tabor's action.

## Report Is Unconfirmed.

London, Nov. 22.—There is no confirmation of the report circulated by a news agency in the United States of the death of Count Tolstoy. A letter to The Times from Odessa, dated Nov. 13, reports that he had quite recovered from his illness and resumed work.

## The Engine Jumped the Track.

Pine Bluff, Ark., Nov. 22.—Conductor Walter Noble of Jonesboro was killed and the brakeman, fireman and engineer of a Cotton Belt fast freight were probably fatally injured in a wreck near Goldman, A. T. The engine jumped the track and turned over.

## Brewery Fined Under Anti-Trust Law.

Dallas, Tex., Nov. 22.—The Fort Worth brewery at Austin has pleaded guilty to the charge of violating the anti-trust law and was fined \$5,500. The other accused breweries will do the same, but will be fined in proportion to their accrued penalties.

## Striking a Light With a Poppin.

The inhabitants of the countries bordering on India have their own methods of making fire. A Burmese messenger recently brought a note to an English official, and the latter observed something resembling a boy's popgun hanging by the messenger's side. Curiosity prompted him to ask the native what it was, and he was surprised to find that it was a machine for making fire.

The native exhibited the apparatus and explained the working, concluding with a practical demonstration. It was a tube, closed at one end and fitted with a piston. At the end of the piston was a groove or cavity, smeared with wax, which was used for making thread or inflammable material adhere to it. The tinder, to keep the old name, is pressed on the wax when a light is required and is not kept there always.

Placing the wisp of cotton on the wax, the native inserted the tightly fitting piston in the tube, then forced it along the latter by giving it a sharp blow. On withdrawing the piston the cotton was found to be alight, having been ignited by the concussion with the compressed air.—Pearson's Weekly.

## Guizot, Thiers and Bismarck.

One day I was invited to dinner with the Count of Enzenberg at the residence of Prince von Bismarck in Berlin. The count, a former charge d'affaires in Paris, was a great collector of autographs. After a repast the count exhibited a sheet of paper on which Guizot and Thiers had affixed their signatures. "It is very interesting," said Prince von Bismarck. "Allow me to show this to my wife." (She was sick in bed at that time.) In a few minutes the chancellor returned, and, returning the sheet of paper to the diplomat from Wurttemberg, he added, "I hope that I did not spoil it by writing something on it."

Here follows what was written on the paper:

My long life has taught me that it is necessary to forgive a good deal and forget nothing.

Guizot.

A little forgetfulness does not diminish the sincerity of forgiveness.

Thiers.

My own life has taught me that I have a great deal to forget and a great deal for which to be forgiven.

V. Bismarck.

## Blunt Judge Morris.

On one occasion, in trying an abduction case, Lord Morris, once chief justice of Ireland, addressed the jury as follows: "I am compelled to direct you to find a verdict of guilty in this case, but you will easily see that I think it is a trifling thing, which I regard as quite unfit to occupy my time. It is more valuable than yours. At any rate, it is much better paid for. Find, therefore, the prisoner guilty of abduction, which rests, mind ye, on four points—the father was not averse, the mother was not opposed, the girl was willing and the boy was convoluted."

The jury found the prisoner guilty, and the judge sentenced him to remain in the dock till the rising of the court. Hardly had he delivered sentence than, turning to the sheriff, Lord Morris said: "Let us go," and, looking at the prisoner, he called across the court, "Marry the girl at once, and God bless you both."

## How High Birds Fly.

A Strassburg aeronaut says he has seen an eagle at the height of 3,000 yards, and again a pair of storks and a buzzard 900 yards above the sea level. On March 10, 1890, some aeronauts observed a lark flying at a height of 1,000 yards. On July 18, 1890, another balloon met a couple of crows at an altitude of 1,400 yards. These, however, are exceptions. Birds are hardly ever seen above a height of 1,000 yards; even above 400 yards they are not frequent.

## TWENTY LIVES LOST.

Norwegian Steamer Ella Wrecked on the Newfoundland Coast.

Halifax, N. S., Nov. 18.—The terrible gale which has been raging on the Newfoundland coast during the past three days has carried death and destruction in its track. Shipping has suffered severely as a result of the storm and many lives have been lost. A private dispatch which reached Lewisburg, C. B., states that the Norwegian steamer Ella, under charter to the Black Diamond Line company, had been lost on the Newfoundland coast in the vicinity of Belle Isle with all hands. The steamer left Montreal on Friday with a general cargo for St. John's, N. F. The Ella was 901 tons register and was built at Sunderland in 1898. This was her last trip of the season on the route. She carried a crew of about 20 men.

## WILL ATTACK THE REBELS.

Colombian General at Colon Will Attempt to Terminate the Deadlock.

Colon, Colombia, Nov. 18.—The Colombian gunboat General Pinzon has arrived here from Savanilla with 700 troops. In view of the unchanged conditions on the isthmus this evidence of the government's policy to reinforce its forces here gives credence to the presumption that General Carlos Alban, military commander of this district, has finally resolved to lead a strong attacking force against the insurgents within his jurisdiction and attempt to terminate the present wearisome deadlock between the Colombian rebels and their government.

## EULOGIZES LI HUNG CHANG.

Empress Dowager Showers Honors on the Dead Statesman's Relatives.

Peking, Nov. 18.—The empress dowager has issued an edict eulogizing the late Li Hung Chang and ordering the erection of a memorial arch near his birthplace. The edict also directs that the rank of marquis, conferred upon the eldest son of the late Chinese statesman in his own right, shall descend through 25 generations. It confers high rank upon the other sons of Li Li, upon whom the posthumous rank of marquis has been bestowed, and confers dignities upon his grandsons, together with lucrative offices.
